

Written WOOP Guide

Before you start with the WOOP exercise, please be aware that WOOP is different from other exercises: it involves thoughts and images rather than rational or effortful thinking. It involves going slow, creating time and space for thinking and imagining.

It is critical that no interruptions occur during the exercise. Phones and electronic devices should be shut off and put away. Start the WOOP session when you feel calm and comfortable. This is your time now. Everything else has to wait. Clear your mind and create space to imagine....

Written WOOP Guide

This was the four-step WOOP exercise. WOOP always works the same:

W

You first name a wish that is challenging, but feasible.

O

Then you name the very best outcome and imagine this outcome.

O

Then you name your main inner obstacle and imagine this obstacle.

P

Finally, you make a plan, an if-then plan of how to overcome the obstacle.

You can use WOOP for short-term as well as for long-term wishes.

You can use WOOP for big as well as for small wishes.

WOOP when you are stressed or when you feel uneasy.

WOOP helps you to sort things out. WOOP every day!

WOOP is a companion to guide you through everyday life and long-term development.

You may have some difficulties at the beginning. Be patient, the more often you WOOP, the better you will become in using WOOP and the more you will become engaged in life.

Practice WOOP as often as you can – play with it!
